No. 14

Press Representatives Distinguished Guests

Oakland & Antioch Railroad Give Grand Excursion to Jolly Scribblers.

(By R. R. Wilson, Special Staff Correspondent)

Accepting an invitation from the management of the new Oakland, Antioch & Eastern electric line, 40 representatives of bay cities publications were joined by proprietors of interior newspapers and enjoyed the hospitality of the managerial staff of this scenic railway company by a trip over the right of way from Oakland to Bay Point, returning to Walnut Creek, and finally bidding adieu to the San Francisco members of the press at Fortieth and Shafter avenue, Oakland.

The occasion was a trial trip over the roadbed on the first train over the A. & O. line, the grade being 4.6 to 10 per cent, operated with 600 and 1200-volt power, the latter figure on the right of way and making 28 miles and hour. Everything connected with the equipment of the road was in perfect working order, the roadbed smooth as glass, the easy riding and elegant passenger coaches affording comfort and rest to the "brain-fagged and overworked editors."

General Manager H. A. Mitchell, J. H. Leary, supt. of transportation; Frank A. Miller, supt. of power and equipment; T. H. Rodenbaugh, traffic manager; H. Arnstein, assistant traffic manager, represented the company. The train was in charge of Conductor F. G. Deyo and Motorman A. B. Cook.

After leaving Shafter avenue station a new country was opened up which is very picturesque in scenic effect and the soil no doubt rich for fruit and vine culture. In fact, the whole country is under cultivation, many pretty homes of a thrifty class of orchardists, vineyardists, dairymen and truck gardeners dotting the beautiful hills and vales.

Leaving Bay Point on the return trip, a couple of hours was spent in Walnut Creek, the coming Pasadena for the Bay Cities' back country. Here a sumptuous spread awaited the excursionists at Rodgers hotel, which was heartily partaken of by the crowd and many compliments extended Boniface Rodgers for a meal fit to tickle the palates of kings. He certainly knows how to get up a swell country luncheon.

Walnut Creek has two banks, a live newspaper fully equipped and many other business places, and the citizens will probably vote in favor of incorporation into the sixth class of county towns.

A few of the spellbinders were called upon for toasts and responded in eloquent eulogies complimenting the railroad officials for the royal entertainment, which was tendered the newspaper fraternity exclusively, so that they would not be lost sight of in the big crowd of April 5, when Contra Costa county will turn out en masse.

Contra Costa county is fortunate that this new transportation line has opened up the country to a new settlement for homeseekers in a county which ranks second in manufacturing enterprises and third in agricultural resources. Every new line of railroad is a benefit to the producer, and the close proximity to city markets is beneficial in the farming and dairy business. It is figured that a thirty-five minute service will be given from Oakland to Walnut Creek, and that the trip from Sacramento to San Francisco can be made in 2 1/2 hours when the line is in full operation, which will be at an early date in the summer months.

EXCURSION NOTES.

The Contra Costa county "leading" newspaper men were conspicuous by their absence on this occasion, but the Richmond Terminal never misses an opportunity to give the news when the development of this county is beneficial to its citizens and taxpayers.

Editor Hawes, formerly of the saccharine center; Crockett, but now

Council Appoints A. C. Faris Clerk

Ira Vaughan Steps From Clerk's Office to That of City Treasurer.

(By R. R. Wilson, Special Staff Correspondent)

Council met in regular session Monday with filled auditorium and all members present. Communication from the U. S. Board of Engineers notified council of dates for hearing questions on harbor. Petition of Word & Charles for extension of time on Virginia street contract to 60 days granted. Protest of John Nicholl against improvement of Richmond avenue referred. Worswick Paving Co. asks for permit to lay cement sidewalk in front of Odell & Stidham's office granted. Petition of property owners for improvement of Twelfth between Barrett and Clinton up to plans and specifications of city engineer. Petition of Richmond Schuetzen club to practice in city limits referred to chief of police. Improvements of Sixth street south of Ohio held up for uniform sidewalk and street width adjustment, the sidewalk was planned for 15 feet wide and now the petitions want sidewalks 8 feet wide. T. Clinch, sewer man, was happy when City Engineer Chapman secured for him permission to lay sewer in Nystrom tract. Albert Mason reported all fire hydrants working 100 per cent capacity. T. H. Moore, hydrant tester, found ditto. Architect Ogborn made monthly report. The ordinance fixing curb grades on Twenty-third street adopted, same fixing curb grades on Hill street postponed. A. C. Faris appointed city clerk to succeed Ira Vaughn, no opposition. Matter of opening of Seventh street consideration postponed till the adjourned meeting this evening, at which time the new city attorney, Mr. Hall, will be qualified to confer. Improvements of Chanslor avenue, Twelfth, Sixth and Ashland avenue in progress. The San Francisco Oakland-Richmond Terminal Railway Company requested to move tracks connecting Macdonald avenue with the Point be moved to Ashland avenue. Total audited bills ordered paid out of city's exchequer \$4900.71. Adjourned to Friday evening, April 4.

Levi Boswell, J. Chandler and M. Kelly were the appraisers of the Seventh street property.

Morton-Connors.

Dr. A. W. Morton, head surgeon for the Santa Fe, has for forsaken the ranks of the benedicts, having on Tuesday taken unto himself a wife. The bride is the accomplished Dr. Ada Scott-Connors. The wedding is a sequel to a romance which had its inception when the bride was a pupil of Dr. Morton in the medical college.

one of East Oakland's news boosters, met many old friends in the Walnut town.

Publisher Martin of the Stockton Record and C. D. Radcliffe, editor of the Merced Sun, were over from their respective valley towns beaming with smiles that never knock.

George T. Crompton, editor of the Walnut Creek Courier, is the live wire booster and full of electricity. He was "sparking" all the visitors on the trip. The Courier is a credit to the town and is generously patronized. Mr. Crompton's efforts are winning many to the community he is sponsor for.

The county dailies overlooked a good chance to give this new line a boost along unselfish lines. What benefits one part of the county is a benefit to the rest of it.

Concord is becoming an up-to-date place. Two hotels and the residences of the bungalow style, makes one wish for a home in the beautiful Ignacio valley town.

Those cigars were certainly some class and a country editor would soon acquire a taste for high living if every host entertained so lavishly as the railroad boys did this trip.

Property Owners Want Even Break

Seventh Street Discrimination Not to Their Liking—Appraisements Not Just.

(By R. R. Wilson, Special Staff Correspondent)

There has arisen much controversy among the workingmen and wage earners who have struggled to build homes along north Seventh street, many of them heading advertisements to "Invest in Richmond." These people work and struggle in factories to pay for their homes. They want streets opened. In opening streets and making assessments for improving the same, they want the same just and equitable. They want corporation's properties appraised the same as the individual, as justly and equitably as the Creator apportions the air that is breathed and the water that is drunk. Did the board of appraisers appointed by the city council and who were to receive, it is said, \$150 each for their services, do their duty as fairly as the Creator would have done? It appears not, for these wage earners with their wives attended the city council meeting Monday evening in the role of asking justice. Two of the appraisers were there and said never a word outspoken. These poor workmen had an attorney who stated the matter very clearly calling out the unfairness of the assessments, discrepancies of figures. Why was the Santa Fe railway company and the furniture factory properties left out? The appraisers have risen from the workingmen's ranks, practically, and why should they overlook the equal rights of a working brother? Do these poor wage earners and tax payers not help pay taxes that helped the appraisers "suck pap from the public teat"? The attorney for the complainants said that the law fundamental to these proceedings is to be liberally construed and that the city council of Richmond had one of two courses to pursue to avoid costly litigation. One is to rescind the proceedings started and the other was to declare the street closed. The other attorney employed by J. W. Wright & Co., who are also interested in this assessment, pointed out to the council how this can be done and it is expected the council will do one thing or the other tonight, and do it quickly, as the assessments become delinquent tomorrow, April 5, at which time proceedings may be started to liquidate through the sale of the poor people's properties who have not paid.

Other improvements of a similar nature are awaiting the final action on this precedent. City Attorney Hall was not qualified for his new position Monday night, to act. The attorneys on both sides will be prepared tonight to wage a legal battle if urgency demands.

Honor to G. Ghiglieri.

A banquet was tendered to Dr. G. Ghiglieri Monday at Hotel Oakland by the leading Italians of the bay cities. Mr. Ghiglieri has been for many years manager of the Oakland branch of the Italian Popular Bank, and recently resigned the position to assume management of a large tract of land in Riverside county and serve as president of the California Cotton Land Co. Dr. Ghiglieri has interests in Richmond, and so great was his faith in this city that he invested early and built the Postoffice block, corner 6th and Macdonald, which he still owns. He figured that property in this vicinity, being one-half way between the north waterfront and the south or inner harbor, would always be in demand and be the hub or center. His forecast is already verified. He leaves Monday to assume charge of his new activities and will make his home in Los Angeles.

Grand Matron Present.

Miram Chapter Eastern Star held a big meeting Wednesday night, District Deputy Grand Matron officiating in the ritualistic work. A banquet followed. A whist party will follow on April 15.

Summary of the Week's Doings

Essence of the News Interspersed With Personal and Local Mention.

Don't forget the concert at the Santa Fe reading rooms tonight.

Harry Adkinson has returned from Los Angeles.

The Rebekahs will celebrate the anniversary of the founding of their lodge tomorrow night.

The Winehaven volunteer fire company saved the sheds of the wharf by prompt action Tuesday evening.

The cigarmakers picnic on the 13th at Grand Canyon park will be the best picnic of the season, so say the smokers.

O. R. Ludewig's new meat market at 22d and Macdonald is a model for neatness and high class goods, along with service.

Point Richmond Aerie of Eagles celebrated their 10th anniversary Tuesday evening. Large delegations were present from the bay cities.

The maps fixing the elevation on all streets in Bay View, Pullman and the annexed districts are being completed by City Engineer Chapman.

Modesto is preparing to receive 500 delegates besides hundreds of visitors who will attend the 46th annual Sunday school convention, April 15-17.

"The Honey-mooners" given by the Richmond Club at the Tenth street school building last night was a mirth provoker. It cured many cases of grouch.

The coroner's jury exonerated Alfred H. Willoughby in the case of the death of Edward McEherron who was run over by the machine driven by Willoughby.

Al. Jackson has started something of his own. He is now working for Jackson, not the other fellow. He has launched the Basket Grocery at 13th and Macdonald. It is a "new wrinkle." Take a look at it.

Mrs. Louise Jensen, wife of J. H. Jensen, formerly of the First National Bank of this city, passed away at Albuquerque, where she was taken about six weeks ago by Mr. Jensen in hopes that the climate would benefit her failing health.

Commissioner Blanchard of the Richmond Municipal Water District recently organized, says that the board will be formally organized next week and that plans will then be prepared for the new system. The attorney and supervising engineer are to be selected.

MARRIED—At the home of J. J. Davis in this city, Tuesday evening, Rev. D. W. Calfee officiating, Miss Gladys Chichester and Mr. Arthur Davis. The bridal couple will spend the honeymoon in the Southland and may visit the big canal before returning to Richmond.

Drawings for the Richmond Terminal newspaper building which will occupy a frontage of 37 1/2 feet on its present site in the busy center of Richmond, 618 Macdonald avenue, are being prepared and will be reproduced in the columns of the oldest newspaper in Richmond in the near future.

If the sanitary ordinance requiring owners of stables to keep their places in a high state of cleanliness is too strictly enforced, the stable keepers threaten to compel garage owners and automobilists to use perfumed gasoline, claiming that the aroma from the latter is injurious to the eyes the mucous membranes of the throat and nasal organs.

Family Reunion.

A happy family reunion was held at the home of Dr. M. M. Bullock, at 227 S. Eighth street Tuesday. Notable among the numerous Bullocks present from the bay cities, was the aged and adored mother of the Bullock brothers. She is one of the early pioneers and has a large circle of friends in Alameda and Contra Costa counties.

Baseball Magnates After the Money

Oakland Bleacher Patrons of Game Demur—Field Glasses to See Players.

(By R. R. Wilson, Special Staff Correspondent)

It is intimated that the swell new bleacher park at San Pablo and 42d street will not draw the fans in such large numbers as predicted by the enterprising magnates who built the park and set the price at 35c for a bleacher seat, the nearest of which is 100 feet from first base, making the players appear like grasshoppers in the dim vista. The two-bit contingent constitute the bulk of attendance at the national pastime game. Any set of magnates who think they can arrange the seating facilities in the far-off background and keep the gate receipts normal, have another guess. The bleacher crowd will not stand for it in Oakland nor in San Francisco. In New York and eastern centers, the bleacherites do not protest so loudly, for baseball is about all the open air amusement they have in season. The result of the arrangement of bleacher seats in the new Oakland park will drive the fan across the bay, and hundreds of fans have already declared themselves to this effect. The grand stand seats in the new park occupy relatively the same position as the old Freeman park bleachers—hence the big kick on the part of the "gallery," who constitute the main support of baseball.

Gambling in baseball threatened to kill the sport, and it has been practically stopped. Now comes the dollar chaser, the avocorous promoter and "slaveholder" in baseball, who has caught the get-rich-quick contagion. But the old fans can remember how easily baseball can receive a backset, and empty bleachers will soon put the game on the blink.

SPORTS.

The Pirates and Red Sox played some real games at Hot Springs, and it was a "serious series."

Hal Chase will hold down second base for New York. Chance must have the spotlight. Now the fans will see what kind of a chance there is for the much lauded manager.

The Elks are progressing along sporting lines, and they propose to put a baseball team on the market that will make the professionals take notice. The merchants will organize, along with the professional men, ministers and others.

Many baseball fans are interested in the amateur games this year, and the attendance at high school baseball games and the semi-professional clubs around the bay will be more noticeable this year than ever. A good amateur game inspires more enthusiasm and real fun than the so-called professionals.

Carbon Factory Plant.

W. A. Stratton, the well known contractor with offices in the Pillow building has been awarded the contract for the erection of the buildings for the Carbon Product Co. at 22d street and Chanslor avenue. Mr. Stratton is experienced in this kind of building construction, and the company is fortunate in securing his services. The sum to be expended in the construction of the buildings at present will amount to \$20,000.

Sunday School Convention.

The 46th annual convention of the Sunday School Association of northern California will be held at Modesto, California, April 15, 16 and 17, 1913. The program is elaborate, and among the many attractions featured is Rev. Matt S. Hughes, D. D., pastor of the First M. E. church, Pasadena, California, in "The Fine Art of Living," a lecture that is the hit of the age.

The Masonic lodges of this county will hold a big get together meeting in Richmond in the near future. The big banquet will be a feature.

Tideland Cases Soon to Be Argued

Titles of Richmond's Waterfront Property Involved in Litigation.

(By R. R. Wilson, Special Staff Correspondent)

The tideland cases which were taken to the supreme court on appeal two years ago, are to be reargued April 14. The supreme court decided that California tidelands were sold to private individuals without right by the state are still its property. If this decision is sustained, those who have purchased tidelands would be compelled to relinquish ownership.

A reversal of the decision would mean that Richmond will be compelled to condemn its harbor site.

Control Full Product.

Full control of the wine monopoly of the state was consummated by the California Wine Association this week. The association has acquired the major portion of the stock of the Italian-Swiss colony which was the only corporation or concern in competition. This means that the big Winehaven plant's capacity will be increased.

Candidates For City Councilmen

Union Labor Candidates Announce Their Candidacy and File Petitions.

(By R. R. Wilson, Special Staff Correspondent)

Organized labor of Richmond will be represented in the city council by three union labor men, if present indications are a criterion say those who are in close touch with the local situation.

Considerable misrepresentation has found its way into the local press as to who the local union men are, and how they are identified with the organized toiling people of Richmond. Here it is, straight and correct:

W. L. Lane, manager of lathers union (not a plasterer). William Picton, electrician, union man, true blue.

Fred H. Eggerth, financial secretary of Carpenters' Union No. 642. Also president of building trades council.

The records and standing of the above candidates are on file at their respective union headquarters which is reliable data.

NEWS OF THE WORLD IN PARAGRAPHS

Resume of Happenings From Beyond the Borders of the Pacific

Comprehensive Review of Interest ing Occurrences From All Sections

Ames, Iowa.—Fire destroyed the chemistry hall of the Iowa state college of agricultural and mechanical arts. Loss is estimated at \$60,000.

Chicago.—The Universal Portland Cement company has started the construction of plant No. 7 at Duluth, which will cost \$1,700,000, and output 1,400,000 barrels per annum.

New York.—Curfew for the "white light" will ring at 1 o'clock in the morning, beginning April 1, according to orders issued by Mayor Gaynor. Night liquor licenses, forty-six in all, have been revoked.

La Crosse, Wis.—B. S. Steadwell of this city, president of the World's Purity Federation, announced recently that the seventh international purity congress will be held in Minneapolis, Minn., November 7 to 12.

New York.—The issue of \$19,000,000 Missouri and Texas Railway company two-year 5 per cent secured gold notes recently purchased by Speyer & Co., has been approved by the public utilities commission of Kansas.

Peking, China.—An aerial fleet is about to be formed in China under the direction of a French officer. Already twelve biplanes have been ordered from France and a grand aeroplane competition will be held in Peking next year.

Washington.—Commander Victor Blue has been appointed chief of the bureau of navigation by Secretary Daniels of the navy department in place of Captain Philip Andrews, who has resigned and will probably be given command of a battleship.

New York.—According to the official Catholic Directory's 1913 edition, there are 15,164,158 Roman Catholics in the United States proper, and a total of 23,329,047 under the United States flag. There are 14,312 churches in continental United States.

Washington.—A million dollars a day is now the export record of the iron and steel manufactures of the United States. The report received for the current fiscal year shows \$215,000,000 worth of iron and steel manufactures in the 215 days for which a statistical record is available.

Washington.—As a third member of a joint commission appointed under treaty provisions for the settlement of British and American pecuniary claims, Henri Auguste Fromageot, a French lawyer and publicist, has been chosen by the governments of the United States and Great Britain.

Washington.—The position of assistant attorney general, now held by William H. Lewis, the negro lawyer of Boston, whose resignation becomes effective April 1, will not be filled by Attorney General McReynolds. The work of which Mr. Lewis had charge has been practically completed.

Cairo, Egypt.—Successful experiments have been made with a river growth called sudd, on the upper reaches of the Nile, a pulp that is suitable for making high class paper. The discovery is expected to have an important effect upon the paper industry and the future of the Sudan.

Berlin, Germany.—Leipzig, it is stated, will shortly be the most important aerial center in Germany. A square mile of ground has been let, rent free for thirty years, by the city authorities who will also expend \$10,000 on equipment and will give a yearly subsidy of £1000. A Zeppelin shed is already being built.

Washington.—Watermelon seeds are now worth \$5 gold per 100 pounds at Tientsin, China states Consul General Knabenshue, while pumpkin seeds are quoted at \$3.25 and \$1.10 per 100 pounds, respectively for the best and lower qualities. These seeds are served at Chinese dinners as salted almonds are served in America.

Winnipeg, Man.—During 1912 there was in round numbers \$20,500,000 expended in new buildings. This included the erection of more than seventy apartment houses. Bank clearances amounted to \$1,337,817,524, an amount exceeded by only eight cities of North America. In Canada, Winnipeg ranked third, being exceeded by only by Montreal and Toronto.

Washington.—An amendment to the postal savings law, providing a building loan system to loan home builders not over \$3500 from postal savings funds at 3 per cent, will be introduced in congress, according to Representative Buchanan of Illinois. He proposes to limit loans to half the value of the property upon which they are made.

Civil Service Examinations

Washington.—On April 23 civil service examinations for men only will be held at San Francisco and San Jose, for the position of postal clerk in the isthmian service. Salary \$100 a month to start. On April 23 and 24 examinations will be held for positions in the forest service, salary \$1200 per year. Application should be made to secretary of examinations at place examination is desired.

News of Pacific Coast Condensed

Calgary, Alta.—Estimates of the municipal electric light department show that the city expects to make a profit of \$37,000 this year.

Martinez—St. Francis' Catholic church, just completed at Bay Point, was dedicated with elaborate ceremonies Sunday morning at 11:30 o'clock.

Chico.—The Armour company of Chicago has acquired a large tract of land on the Feather river, east of Nicolaus, and will at once begin to plant 12,000 acres of the tract to rice.

San Francisco.—Thursday evening members of the Landmarks League celebrated at a dinner the anniversary of the discovery of the Golden Gate by Don Pedro Fages March 27, 1772.

Washington.—Major Littlebrant, First United States cavalry, a native of California, has been designated by the war department to be acting superintendent of the Yosemite National Park.

Olympia, Wash.—Henry Drum of Seattle, ex-mayor of Tacoma, has been appointed by Governor Lister to be warden at the state penitentiary at Walla Walla to succeed C. S. Reed, resigned.

Chico.—Four feet of snow has fallen in the Sierra Nevada since Saturday the fall being without precedent during the winter and one of the largest experienced in the mountains for several years.

Los Angeles.—The third trial on a jury-bribing charge of Clarence S. Darrow, former chief counsel for the McNamara brothers, has been set by Judge Frank R. Willis, presiding, judge of the superior court, for June 16.

Salt Lake City, Utah.—Governor Spry has signed a bill passed by the last legislature providing for an appropriation of \$75,000 to make Utah exhibits at the Panama-Pacific Exposition at San Francisco and the fair in San Diego.

Pasadena.—In a fire so fierce it defied all efforts to curb it the Mount Wilson Hotel, a landmark of Southern California, visited by many thousands of tourists in the seven years it stood on the crest, has been destroyed. No one was injured.

Berkeley.—A demonstration train equipped by the University of California left here Wednesday over the Santa Fe lines to show dairymen throughout the state modern methods of preventing disease and how to increase profits by scientific methods.

San Francisco.—According to D. A. Utter, surveyor general of Idaho, who has just returned from a long visit in the Philippine islands, a gigantic plan for the development of the timber resources of the islands is being worked out and will include a fine of freight steamers for points of distribution, including San Francisco, New York and London. Two concessions of 500 square miles each on one of the islands are being negotiated.

Honolulu, H. T.—Rear Admiral Walter C. Cowles has been relieved as commandant of the naval station at Honolulu by Rear Admiral Charles B. T. Moore. Rear Admiral Cowles will become commander in chief of the Pacific fleet, succeeding Rear Admiral William H. H. Southerland.

Berkeley.—Thomas Rutherford Bacon, professor of modern European history at the University of California and one of the most distinguished men of letters in the United States, died Wednesday at the age of 63 years, at his residence here. Professor Bacon had been in failing health for more than a year.

Olympia, Wash.—Melvin M. Goodman of Seattle, formerly superior judge of Columbia county, Wash., was appointed by Governor Lister as chairman of the state public service commission, to succeed George A. Lee, resigned. E. W. Olson of Walla Walla will succeed Charles F. Hubbard as state labor commissioner.

Eureka.—The people of Hayfork in Trinity county have requested the aid of Humboldt in securing an extension of the Trinity state highway from Peanut to Wildwood up Hayfork creek. It is said that this route is water grade and the only route that does not cross a mountain. It is probable that the route will be definitely settled by the state engineers.

Oakland.—A proposition is on foot to turn the fixing of rates to be charged by all public utility companies, except those of the People's water company, over to the state railroad commission. The city council has asked City Attorney Woolner for an opinion as to the legality of placing this question before the voters for a referendum at the May election.

Portland, Or.—A mortgage with a consideration of \$10,000,000 has been filed here covering the properties of the Northwestern Electric company, which is constructing a large plant to engage in the electric light and power business in Portland and vicinity. The mortgage was the Anglo-California Trust company of San Francisco, which is trustee for the bond holders.

How the Powers Stand

For those whose knowledge of the subtle political alliances and antagonisms of the European powers is a trifle vague—and there are many who come in this category—Henri Tardieu, editor of the Bulletin of Foreign News in the Paris Temps, has written an illuminating article called "A Bird's-Eye View of European Politics," which will appear in the April Century, and which describes the network of interests involved in the Balkan situation.

ADRIANOPLE TAKEN BY ALLIES

Great Turkish Fortress Capitulates After Siege Lasting Several Months

Shukri Pasha, Commanding General, Fires City Before Surrendering to Bulgarian General

London.—Adrianople has fallen, after one of the most stubborn defenses in the history of warfare, and Tchatalja, according to telegrams received by the Bulgarian legation at London has suffered a like fate.

The information regarding Tchatalja may refer to the town of that name and not to the fortifications, although it is possible the Bulgarians carried all before them.

Shukri Pasha, the defender of Adrianople, handed his sword to General Savoff, the Bulgarian generalissimo, not, however, before carrying out his threat to destroy the town rather than let it fall into the hands of the Bulgarians.

From all accounts the arsenals, stores and much of the town were consumed by fire. It was reported also that Shukri Pasha had taken his own life, but this is believed untrue, as, after deciding that defense was no longer possible, he sent word to General Savoff that he was burning the city.

General Ivanoff, who commanded the forces around Adrianople, entered the following day, while King Ferdinand followed soon after.

The battle which preceded the surrender started on Sunday night with a three hours bombardment. Later the besieging troops in the east advanced under the glare of searchlights to attack the advanced works at Maslak. After a fierce defense, lasting throughout Monday, the Turks retired from the forward forts.

Although great progress had been made in the east, in other sections enormous losses had resulted to the Bulgarians with small gains. The attack was renewed on Tuesday and Wednesday the important inner forts were taken after hard fighting.

Berlin.—The Balkan allies are triumphant and the end of the war is in sight.

The victory at Adrianople was spectacular. After a terrific bombardment lasting twenty-four hours the shells raining upon the Turkish forts, the Bulgarians and Servians charged the outer lines, capturing them. Soon afterward they swept triumphantly into Adrianople.

German military attaches with the Bulgarian army report the final bombardment was remarkably effective. The gunners had the range perfectly. Concentrating their fire upon a certain spot by order of the Bulgarian commander, the gunners hit the concealed target with scores of siege gun shells, wondering meanwhile what would happen. Presently they knew, and loud cheers echoed as the Turkish ammunition and food depots blew up with a roar that could be heard above the din of battle.

Picking two regiments already famous for valor, the Bulgarian and Serbian generals led the charge. The Turks fought stubbornly, but were compelled to fall back. The allies advanced swiftly and the victory was soon complete.

The Balkan troops entered Adrianople with the city in flames and the population fleeing.

The powers were informed of the decisive victory and the international peace commission is expected to act without delay.

MONEY APPROPRIATED TO STUDY RURAL CREDIT SYSTEM

Sacramento.—Three thousand dollars is appropriated in the bill of Senator E. S. Birdsall, providing for the appointment of two men to study systems of rural credit in Europe this summer. The California delegates are to join others from the southern states who are going to make the investigation.

Senator E. O. Larkins was the only speaker in opposition to the bill, saying he thought there was plenty of such information gathered by federal officials and on file in Washington.

Senator Caminetti spoke in favor of the bill, telling of the importance of the investigation to be made, and that he had met in Washington this month several of the southern delegates who were to make the investigation.

United States Government Will Soon Recognize China

Washington, April 2.—The United States government has decided to recognize the Chinese republic. Secretary Bryan conferred with President Wilson nearly an hour today at the White House, completing the details. A note is being prepared at the state department to be addressed to China through the Chinese minister here.

Single Presidential Term Again

Washington.—Efforts to secure submission to the country of a single presidential term constitutional amendment will be renewed at the approaching session by Senator Works, who will introduce an amendment that would prevent Roosevelt, Taft or Wilson from seeking re-election.

J. P. MORGAN PASSES AWAY AT ROME

Serious Condition of Noted Financier Concealed Until Very Near End

Became Recognized Leader in Financial Operations During Cleveland Administration

New York, March 31.—J. Pierpont Morgan passed away at Rome at 12:05 today, Roman time, according to the officers of J. P. Morgan & Co. Up to last night his true condition was concealed by his son-in-law, Herbert L. Sattellee, who accompanied him on his European trip, and his physician, Dr. G. A. Dixon. There was called from Naples another American physician, Dr. M. Allen Starr, and Dr. V. Bastianelli of Rome was called into the conference. Last night Mr. Morgan's condition was so serious that they issued a bulletin describing his condition.

The substance of this bulletin was that Mr. Morgan had been persuaded to take to his bed a week ago and to remain there. He did not sleep much until last Wednesday, and it was found impossible to nourish him. Since Wednesday he has been losing strength very rapidly. He had been fed artificially since that time, as he was unable to swallow.

J. PIERPONT MORGAN

Morgan's mind remained clear until he dropped into a light sleep last evening. He died without the slightest struggle.

Morgan's last public appearance in America was before the Pujo committee, at which he was the central figure in the so-called money trust. At that time Morgan was at his best, replying to the committee's questions with the acuteness and wit which has always characterized his utterances at public hearings. After the committee was through with him he went abroad, first to Italy, then taking a trip to Egypt and then back to Italy. Time and again reports have come that he has been in bad health, but every time such a report was sent by cable it was promptly denied. Nevertheless his death has been to a considerable extent discounted in the money market.

Had he lived eighteen days more Morgan would have been 76 years old. The son of Junius Spencer Morgan, himself a banker of international reputation, Morgan was educated in the public schools of Boston and at the University of Göttingen, Germany. He entered banking life in 1857 as the New York agent of Duncan Sherman & Co. of which his father was a partner.

Morgan's operations as a reorganizer and trust-builder have been nationwide. His largest operation was the organization of the United States Steel corporation, with its capital of \$1,100,000,000; but his career in finance may be said to have dated from the time that, at the request of President Cleveland, he floated \$62,000,000 in bonds to provide gold to replenish the reserve in the United States treasury. His financial operations, undertaken with the assistance of George F. Baker of the First National Bank of New York, the private banking house of Kuhn, Loeb & Co., and other concerns, generally known as the "Morgan group," have been enormous. The Pujo committee claimed that the Morgan group, by a system of interlocking directors, controlled \$25,000,000,000 of capital.

The group controls over 50,000 miles of railway in the United States. Morgan also organized the international steamship combine. He put together the present working agreement of anthracite coal miners.

On the other side of his career, the side away from business, he has made donations amounting to \$1,500,000 to one hospital in New York. He has been an enormous giver to various trade schools, to the new Cathedral of St. John the Divine and to the American Museum of Natural History, the Metropolitan Museum and to other institutions. Morgan has also been prominent in another manner. He built the yacht Columbia, which defeated the Shamrock in the Americas cup race in 1899 and 1901.

Morgan was twice married. He leaves a son, who has been trained, as far as possible, to succeed him in the business, and three daughters, one of whom, Ann Morgan, has achieved some fame as a social reformer.

NATION JOINS STATE IN CONSERVATION

Lane and Officials of Oregon Agree on Terms of Co- operation

State to Begin Certain Large Irrigation Projects With Assurance of Assistance

Washington.—Practical conservation and businesslike co-operation between state and nation is initiated by Secretary Franklin K. Lane of the interior department in a contract approved by him between the United States and the state of Oregon. At a conference held in his office, at which were present Secretary Lane, Director F. H. Newell of the reclamation service, Senator Chamberlain and John H. Lewis, state engineer of Oregon.

A formal agreement was presented which provides for co-operation between the federal government and the state of Oregon in their investigation of irrigation and power projects. The secretary agrees to withdraw the necessary land and the state engineer agrees to hold the necessary water for the irrigation of projects under investigation. Any project or unit may be released for construction by private capital upon payment of the cost of preparing plans, providing such development will be carried out in harmony with the public plan for the highest utilization of the waters of the state.

The sum of \$10,000 is now available, a half of which is contributed by each party, and will be expended largely on the investigation of the 300,000-acre Deschutes river project starting immediately on the Tumalo creek unit of 35,000 acres. The state has appropriated \$450,000 for the partial construction of this unit and Secretary Lane has agreed to allot an equal amount for construction of the entire project in co-operation with the state.

The Oregon legislature has submitted a constitutional amendment for the vote of the people authorizing the issuance of bonds for the construction of irrigating and power projects. To complete the Deschutes project will require about \$8,000,000. Secretary Lane stated that he was in sympathy with the entire plan of co-operation and that if the state of Oregon would put up \$4,000,000 toward the construction of this project, it was his opinion that an equal amount of money could be allotted from the reclamation fund by that time for this work in Oregon.

The joint construction of the Tumalo creek unit will serve as an experiment in co-operation and will prove useful in perfecting an organization before taking up the larger and more important work. State Engineer Lewis said: "I am much gratified at the result of our conference. It promises a new era of progress and development for Oregon. Everybody knows that there is absolute stagnation today in irrigation development by private enterprise. Irrigation securities are under a cloud; the investors will have none of them; our irrigable lands cannot be reclaimed except through the joint efforts of the state and federal government."

"I believe the initiation of this new policy is almost as important to the western states as the passage of the reclamation act itself. It will mean the doubling of the reclamation fund and it will bring about a close relationship between the state and nation in a work of internal expansion, a recognition of state duties as well as rights, the importance of which cannot be measured at this moment. It foretells forever the proposed repudiation of the obligations of the reclamation settlers to the government which has been advocated by some western politicians."

PRESIDENT WILSON ASKS AID FOR FLOOD SUFFERERS

Washington.—President Wilson has issued the following appeal to the nation to help the sufferers in the Ohio and Indiana floods:

"The terrible floods in Ohio and Indiana have assumed the proportion of a national calamity. The loss of life and the infinite suffering involved has assumed the proportion of a national calamity. The loss of life and the infinite suffering involved prompt me to issue an earnest appeal to all who are able, in however small a way, to assist the labors of the American Red Cross, to send contributions at once to the Red Cross at Washington or to the local treasurers of the society. We would make this a common cause. The needs of those upon which this sudden and overwhelming disaster has come should quicken every one capable of sympathy and compassion to give immediate aid to those who are laboring to rescue and relieve."

"WOODROW WILSON."

Oddie Signs Recall Law

Carson, Nev.—Governor Oddie has signed the recall law. It covers all officers in the state. One-fourth of the voters are required to institute the recall. Other candidates may run also. The person receiving the highest number of votes serves for the remainder of the term.

Students Study Mining at Grass Valley
Grass Valley—Stentenberg state university students, in charge of Prof. Andrew Lawson, spent five days last week studying mining in this section.

What Is Coryza?

Coryza is a medical term. It means chronic catarrh of the nose. It began with catching cold, producing a slight nasal catarrh. Then catching cold again. Finally the catarrh is chronic. After-wards brown scabs form in the nose, the breath is fetid, breathing through the nose more or less obstructed. Then the victim has coryza.

In taking Peruna for coryza, a tablespoonful should be held in the mouth, and then allowed to slowly trickle down the throat, occasionally breathing out through the nose, so that the fumes of Peruna will permeate all through the throat and posterior nares. Peruna has cured a multitude of this sort of cases, breathing warm salt water, a tea-spoonful to the pint, is sometimes necessary to thoroughly clear out the nose, which should be done twice a day, in the morning and in the evening.

But it is the Peruna that should be mainly relied upon for a permanent cure. People with coryza are generally poor sleepers, digestion is poor, appetite is poor. Peruna will correct all these difficulties.

Peculiarities of Twins.

Many pairs of twins, as every one knows, are difficult or almost impossible to tell apart. In the case of these striking resemblances the similarity of character which accompanies it breaks out in curious ways. A newspaper recently drew attention to a couple of twins, named Evans, who bewilder the stranger by making the same remarks simultaneously, and begin humming the same song at the same moment. There are lots of similar cases on record.

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—our "Patent Medicine"—but used in accordance with the directions for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Remedy Co., Chicago.

Better Than Drugs.

For people who are severely troubled with the inability to sleep soundly, some diversion is needed, a party, an entertainment or theater. Reading poets and philosophers will help, and very often a hot drink will prove a great help in inducing a natural and restful sleep. But above all, breathe deeply of good pure air just before retiring, and have your sleeping room well ventilated.

Piles Cured in 5 to 14 Days.

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 5 to 14 days. Adv.

Thrift.

Thrift has its roots in self-denial. It is in no way identical with avarice, though the spendthrift may denounce every practitioner of frugality as a "miser." It is the practical outcome of that prudence which aims at accomplishing great things by humble means. Without it the world in which we live would still be an "unwooded garden."—Rochester Post-Express.

Mother will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period. Adv.

Stretched for a Gallop.

John, aged four, was walking along the street with his mother and they passed a butcher shop. John stopped to look at a little pig that was hanging in the window. He turned to his mother and said: "Look at the way that pig has his feet spread out. I bet they shot him while he was running."

Judge's Two Rules.

Judge Hans Hamilton, at the Black-pool (Eng.) county court, replying to an expression of regret at his forthcoming retirement, said that, in order to expedite business and save time, he always had in front of him, written in large letters upon a piece of blotting paper, the words: "Do not talk. Do not make jokes."

Fruit Notes.

Grape fruit is at length becoming popular in Germany, it is not so many years ago since it began to become popular in the United States, and it should be remembered that Germany was first to eat the tomato.—Christian Science Monitor.

Keep It Mum.

If you have not slept, or if you have slept, if you have the headache, or leprosy, or thunderstroke, I beseech you by all the angels to hold your peace and not pollute the morning.—Emerson.

On the "Firing Line"

If you would maintain your place in the "front rank" you must keep strong and robust. Sickness soon relegates you to the rear. Try

HOSTETTER'S STOMACH BITTERS

when the appetite lags—when the digestion is bad—when the liver and bowels are inactive. It will surely help you.

S. F. N. U. 14, 1913

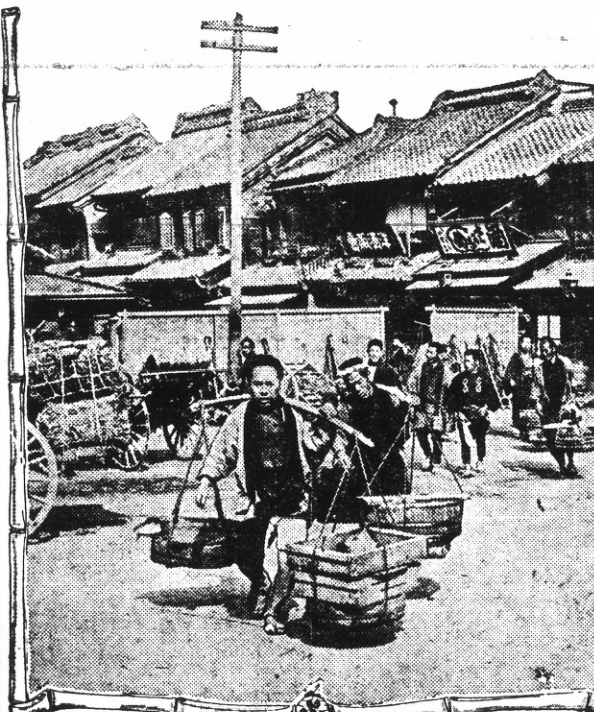

QUEER CUSTOMS in JAPAN

FINDING myself with two free days to spend, I went down to the docks and boarded one of the little steamers which foreign residents here in Nagasaki term the "Nomo liners," probably because they have not the slightest resemblance to a liner. The two hours of the journey I spent drinking tea with the "captains" and the "bos'nans" on what might, in a Pickwickian sense, be called the bridge, writes C. A. Hibbard in the Chicago Daily News. The little steamer spluttered, splashed and grunted through the waves merrily except at those times when near a port the captain was too free in his use of the whistle. The "liners" resent the indignity of having their approach heralded in such a public manner and stop during the operations. Most admirable modesty!

At five in the afternoon we came to anchor in a witching little lagoon at the village of Nomo. Here, with six or eight other passengers, I was rowed ashore in a sampan by a local charon. A step took me to the farther side of the promontory, where I embarked for a half hour's sail to Kabashima, an island lying some three miles off the mainland.

Looking for an inn.

The boatman had directed me to the "Om" inn as the best place in the island. To find it in the one, long narrow street of the village seemed to be easy enough. Before I realized it, however, I had passed out through the open to the other side of the island, and quite missed anything that looked like an inn. I started back. The streets were deserted except for the women taking their baths along the roadside. Imagine a rhinoceros taking a bath in a tumbler of water; that

BURDEN DEARERS

was the impression I received from an old matron comfortably ensconced in a small tub at the side of the street. Her years made my approach excusable to myself; I found afterward that really it was only my own fear which I had to consult in the matter, as even younger women and maidens of the community were unruffled by the appearance under the same circumstances. Tipping my hat to the dame, I ventured:

"Condescend to pardon me. I will cause you honorable trouble, but kindly tell me where I shall find the 'Om' inn."

"No, please don't trouble to excuse yourself. As for the inn which you are seeking, it is only necessary to go on a little farther and you will find it at the right. It has two stories, so you will easily find it."

"But great thanks. You have been most kind."

At the inn I changed my light clothes for the more comfortable summer kimono of the Japanese and, escorted by the maid of the hotel as guide, I hunted up the public bath.

My visit to the bath was an event of civic importance. No wonder I had been obliged to inquire my way a few

minutes ago from the women. All of the men of the village were gathered here for their evening bath. Entering the front room, I gave the old dame in charge a 5 cent piece, to receive back 3 1/2 cents in change, strode to the back room, shedding my clothes and wooden clogs as I went.

At the Town Tub.

The town tub was the meeting place for the city fathers. Here they all were squatting up to their necks in the boiling water and lined up along the sides of the bath. At the upper end a grizzled old patriarch held forth as chairman. He was one of that skin and bones type of Japanese and had a long, scraggly beard of so few hairs that one was tempted to count them while his duties as presiding officer but let him be still long enough at a time. Fishing, which had been the subject of debate up to that time, was dropped at the entry of the "man of the west."

With all the composure that one can assemble when tempted to laugh every moment, I stepped up and begged their pardon for intruding on a tub already filled. The hint was taken; a few large, wonder-eyed children were pushed out of the floor and room was made for me.

But my politeness had been my undoing. It gave them to think me far more advanced in the language than I am. I passed over the preliminaries successfully. Yes, I came from America. He was twenty years old (my age is different every time I am asked). "I was just six feet tall." "No, I wasn't married." But when it came to the intricacies of language involved in a discussion of the coming presidential election in Amer-

ica, the relative merits of "Taft" and "Roosevelt," I was swamped. I wonder what Taft would have given to have heard my exposition of his platform to the boiling tubful of naked citizens of the little fishing village. The one man—he of the beard—seemed to have won his position in respect in the community through the fact that he could read and was the honored subscriber to an Osaka paper. And then back to the inn. The same good nature, the same innocence and always the same curiosity as to the foreigner. After a dinner, the place of resistance of which was raw fish, I went to bed. In a country in which, though there is considerable difference between going to bed and going to sleep. A necessary preliminary to the latter is complete exhaustion from trying to break one's vengeance on the flesh. I finally dropped off to the drone of many voices chanting the Buddhist prayers. Perhaps they were praying for a good run of fish on the morrow.

The next morning, after an early breakfast on raw eggs and rice, I hired a boat with two men to ferry me across a rather narrow strait for the sum of 1 1/2 cents.

Mr. McCann (suspiciously)—How do you know that I have a spade?

Mr. O'Grady—Because, when I gave you the yard, you spit in yer right hand.

Too Cheap.

At the automobile show in New York Lord Basil Blackwood said of an overcheap car:

"It's poor economy to buy a car of that type. I said to a manufacturer one day:

"What a 48-horse power car for \$175? Why, man, it can't be done!"

"Do it," was the quiet reply.

"But it must cost more than \$175 to make a car like that," I said.

"It does," said the maker; "but you forget, perhaps, that we run a vast repair department in connection with our regular plant."

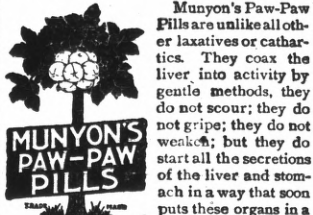

The Difference.

Daring that wins, the world calls success; daring that loses, recklessness.

Bad Luck.

Bad luck? 'Tis only another name for bad judgment or bad habits.

CONSTIPATION

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not grip; they do not weaken; but they do start the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

Maintained Belief in Ignorance.

Opposition to state education in the past was due largely to a belief that too much learning was not good for the masses. The worthy Hannah More even, who was one of the most earnest supporters of the movement for the establishment of schools for the poor in England, had very definite ideas as to how far the children should be educated. The curriculum, she declared, should comprise only reading the Bible and the catechism, and "such coarse works as may fit the children for servants," adding decisively, "I allow of no writing for the poor."

Man's Superiority Early Shown.

Rude sculpture dating back, scientific authorities believe, at least 200,000 years, show that primitive man had representations of other creatures at a stage of human development when the conditions of existence were little in advance of those prevailing among the higher mammals of that period. But no other denizen of the earth manifested the slightest desire or ability to make images of anything.

It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, aching, callus, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial Address: Allen S. Olmsted, Le Roy, N. Y.—Adv.

Made Him Suspicious.

"Did you ask your girl's father for her hand in marriage?" "I did." "And he refused you. I can tell by the way you look." "No, he didn't. He gave his consent." "Then why the peculiar look you are wearing?" "He was so darned willing."—Houston Post.

Brazil's Valuable Water Power.

Fortunately for Brazil, without any coal of much value, there is water power to be found in almost every state in the republic, and the large power plants already installed for some years have been obliged to increase their voltage to meet the growing demands for light and power.

Omit the Word "Can't."

It is said that Napoleon the Great hated the word "can't," and that he never used it if he could possibly help it. In that respect most people differ from Napoleon. If they were to substitute the word "will" for "can't," they would be able to accomplish much more.

Papa's Hopes.

Jack—"Your baby looks like its mother." "Has her nose, eyes, mouth and ears." Pete—"Yes. I have hopes that it will look like me when it gets some teeth."

Quite a Stunt.

Before marriage a woman has to pretend she doesn't take a man seriously when she does, and after marriage she has to pretend she does when she doesn't.—The Tattler.

Modern Isalaiah.

There are few twelfth century Isalaiah. Nowdays, when the Lord asks, "Whom shall I send?" men don't say, "Here am I, send me"—they send their wives.—Wolftman.

THE DEAREST BABY

Mrs. Wilkes' Fondlest Hopes

Realized—Health, Happiness and Baby.

Plattsburg, Miss.—"Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for now I am well and have a sweet, healthy baby, and our home is happy."

Her Solicitude.

Katherine is 2 1/2 years old. Her father came home one afternoon, after working three days and three nights at high pressure, with almost no sleep. He lay down with the feeling that he did not want to wake up for a week. Half an hour later, from the depths of his dreams, he heard a small, clear voice, "Father!"

The sleeper stirred, and turned his head on the pillow.

"Father! father!"

He stirred again, and moaned.

"Father! father!"

He struggled and resisted and soon dived, and finally raised his eyelids like a man lifting heavy weights. He saw Katherine smiling divinely beside his couch.

"Father! father!"

"What is it, daughter?"

"Father, are you having a nap?"

"No—You're Companion."

Burdens of Wealth.

"Wealth doesn't always bring happiness," remarked the youngster with the large spectacles.

"No," asserted the other kid. "Look at me cousin yonder. He's got two cents and he can't decide between tobacco and ice cream."—Pittsburg Post.

The Modern Way
of Keeping House
Cooking with gas is the modern way of
keeping house. Cooking with coal or
wood means hot, hard, dirty work. And
sometimes the stove won't "draw."
When you cook with gas there is no dirt
or no trouble. The kitchen is always
clean.
Why not investigate "Pacific Service."
Pacific Gas & Electric Co.
709 Macdonald Ave. Phone Richmond 6321

The Best Home Lighting Is
Possible For You.
Electric lighting gives less trouble than any
illumination. It does not soil walls and ceilings.
You save in decorating costs. You can use as
little as you want, or as much—from two candle
power up. House wiring and fixtures are a
sound investment—not an expense. Let us
show you.

THE TERMINAL

ISSUED EVERY FRIDAY
Established in 1903
Legal City and County Paper
GEO. W. RYAN Publisher and Editor
TERMS OF SUBSCRIPTION:
One year, in advance \$2.00
Six months, in advance \$1.00
Advertising rates on application
Entered as SECOND-CLASS MATTER June
22, 1903, at RICHMOND, CALIFORNIA, under
the ACT OF CONGRESS of March 3, 1879.
Legal notices must be paid for on or before
delivery of ad for publication. No excep-
tion to this rule.

April showers for California.

Mr. Workingman, how do you
like having your pay envelope 'cut'
two dollars for poll tax?

The subway still assumes that
same damp, dangerous and chilly
air. But give us time.

Richmond responded to the call
for aid, a handsome sum being sent
the flood and tornado sufferers,
amounting to about \$1500.

It is again rumored that another
daily newspaper is to be launched
in Richmond. Don't we need a
few more real estate offices, too?

If the bill assessing real estate
men ten dollars per year license
passes, the revenue derived from
Richmond alone would furnish
funds for the building and upkeep
of the state highway.

The Richmond Terminal is a
booster for Contra Costa county.
The O. & A. Will benefit Rich-
mond, because Richmond will build
over the hills to Walnut Creek, and
eventually be the finest residence
district in the state.

Members of the Richmond Club
are keeping apace with the times.
The club is wide awake to local
conditions. The action taken on
the proposed charter amendment
regarding the tax rate was well
received by the property holders.

Oakland Typographical union
contributed \$100 to the Ohio flood
sufferers, the union's check for the
above sum being the first contribu-
tion received by the stricken people
of the Buckeye state. Oakland
leads, and the printers are to be
commended for their generous spirit
and prompt response to the call.

The state highway should be
routed through the most thickly
populated sections, and not through
isolated districts for accommodation
of the few. The people should
watch this closely and promptly
frustrate manipulation by those
who would further their own inter-
ests at the expense of the taxpayer,
who has no large red automobile to
burn up the roads with, but must
propel himself via 'shanks' ponies.

POLITICAL PERSONALS.

There are a number of 'loun' dawgs to
be kicked around the coming election.
If you are sensitive, "keep off the grass."

Senator Owens made a good repre-
sentative for Contra Costa county. The Ter-
minal predicted he would, and supported
him regardless of politics.

Tom Johnston of Richmond is a mem-
ber of the committee appointed to in-
vestigate the San Quentin administration,
and if Mr. Johnston corroborates the
statements made by some of the inmates
of the big pen, it must be on par with
the black hole of Calcutta. Mr. Johnston
should touch this up in the local press.

Ed. R. Wilson, accompanied the
bunch of Contra Costa editors
from Oakland on the press excu-
sion last Saturday over the O. & A.,
and met many former friends in
the county where he once resided.
Mr. Wilson at one time published
the Antioch Enterprise. He is one
of the best informed newspaper
men in this section on the politics
of the county, the records and trans-
actions of political lights and as-
pirants for public favor. He has
the record of every newspaper, its
manager, editor and devil compiled
in a large scrapbook, and can sup-
ply astonishing and reliable data for
"campaign purposes" to any of
new publishers who have recently
located in Contra Costa. Mr. Wil-
son will contribute to the columns
of The Terminal a letter each week,
taking for his subject "Reminisc-
ences of Contra Costa County
Politics: Records and Biographical
Sketches." These letters will be
read with interest by those who
have watched the political game as
it was and is now played in the ban-
ner county of California.

SUMMONS.

In the Justice's Court of the Fifteenth
Township, County of Contra Costa, State
of California.
M. R. Jones and Lee D. Windrem,
Plaintiffs, vs. Cornelius O'Brien, Defend-
ant.

The People of the State of California
send greeting to Cornelius O'Brien,
Defendant.
You are hereby required to appear in
an action brought against you by the
above named plaintiffs in the Justice's
Court of the Fifteenth Township, County
of Contra Costa, State of California, and
to answer before the Justice, at his office
in said township, the complaint filed
therein, within five days, exclusive of
the day of service, after the service on
you of this Summons, if served within
the township in which this action
is brought; or, if served out of said town-
ship, but in said county, within ten days,
or within twenty days if served else-
where.

And you are hereby notified that if
you fail to so appear and answer, the
plaintiffs will take judgment for any
money or damages demanded in the
complaint, as arising upon contract, or
will apply to the Court for the relief de-
manded in the complaint.

Given under my hand this 23 day of
April, 1913. John Roth,
Justice of the Peace of Said Township.
Clare D. Horner,
Attorney for Plaintiffs,
Richmond, California.
First pub mar 14. Last may 9

WANT 'BUSINESS' MEN FOR OFFICE

There are some "business" men
who severely criticize the union
contingent of Richmond for placing
members of labor organizations in
nomination for office. This is not
consistent. The term "business"
man does not always carry with it
the necessary qualifications for in-
telligent administration of municipal
affairs. The business man would
be down and out of business if the
union man's pay envelope did not
materialize Saturday night. The
unions of Richmond total 2700
men. They have placed three of
their members in the field for city
councilmen. They have the en-
dorsement of several club organiza-
tions, and should win with hands
down. Will they do it? Will the
wily disturber and disorganizer get
in and scatter the forces of the solid
front of 2700 and thereby defeat the
wishes of the people of this indus-
trial center, destined to be one of
the greatest. Prejudice against
unionism is growing less each day.
The progressive captains of indus-
try are demanding the best material
and they find it only in the ranks
of organized labor. The union men
of Richmond have no P. H. Mac-
Carthy to lead them. But in time
one will appear on the horizon, and
then the thousands of workmen
of Richmond, the men responsible
for the great beehive of industries
here, will direct the business of
the municipality, for they will pos-
sess the requisite qualifications—
honesty and efficiency.

MADERO'S CAUSE.

It is well known that President
Madero was assassinated in cold
blood, his socialistic tendencies be-
ing responsible for his untimely
death. It is impossible for the
poor people of Mexico to sever the
bonds of slavery, which was Ma-
dero's sole object. The situation
in Mexico is understood by few.
Exploitation by foreign capital and
the abject poverty of the working
class, will cause an endless era
of revolution and murder to con-
tinue until a form of government is
adopted that will emancipate the
common people from the worst form
of oppression. The relief offered to
them by socialists appeals to them
as the simplest and best. Madero
knew the hearts of his people. He
was sacrificed on the altar of Mam-
mon. Ambassador Henry Lane
Wilson to Mexico from the United
States, has some questionable diplo-
matic transactions to account for in
connection with the putting away
of Madero. Socialists ranks are
being constantly increased and their
cause strengthened by the grimy
hands that were implicated in the
cowardly assassination of the friend
of a down trodden people.

J. PIERPONT MORGAN.

In the passing of J. Pierpont
Morgan, America lost its ablest
financier. Mr. Morgan reached the
highest round in this age of money
manipulations and the Pajo com-
mittee, through its investigation at
Washington, D. C., could not star-
tle him. Every answer given by
the magnate, showed wonderful
depth of plan in which billions of
dollars were safely invested. Mr.
Morgan was self made and his man-
agement was legitimate under the
laws of our nation. He possessed
keen foresight and was kind to all
in his employ. Like Edward H.
Harriman, the great railroad finan-
cier and organizer, Morgan left his
affairs in the hands of wise man-
agement who will direct same with
continued profitable interests.

COUNTY ASSESSOR'S
NOTICE TO TAXPAYERS
FOR 1913
All persons, firms, companies, corpora-
tions and associations are required to
deliver at the Assessor's office, Martinez,
immediately, a statement under oath of
all the property, both real and personal,
owned or claimed by him, her or them,
or in their possession, or held in trust
for others; at 12 o'clock meridian, on
the
FIRST MONDAY OF MARCH, 1913
in accordance with the new constitution.
Refusal or neglect to make such sworn
statement of all property owned or held
in trust, will subject the person so re-
fusing or neglecting to make such sworn
statement to the full penalty of
the law.
All property owners should see that
their property is correctly described on
the assessment roll.
Immediate attention is necessary, as
work on the roll has already been com-
menced. Proper blanks may be had at
the Assessor's office or of his deputies.
All statements must be in the Asses-
sor's office on or before the 15th day of
May, 1913.
